Nature-based Urban Regeneration through Water: Integrating the water cycle in urban renaturalization

NatUR-W aims to address urban challenges brought by a situation of energy poverty and climate change. Through NatUR-W, the Lorca City Council is regenerating Barrios Altos, a neighbourhood in Lorca's historic centre.

Innovative solution

- Creation of an Urban Forest
- Rehabilitation and improvement of the energy efficiency of public buildings
- Improvement of the water management practices

Budget

€ 4.779.752 Total ERDF budget granted

Duration: 01/03/2023 – 31/07/2027
